2026

Core liquid product envelope

1507-1510

Soy, peanut & olive oils

Soybean oil; peanut oil; olive oil and fractions; other oils obtained exclusively from olives and relevant mixtures.

1511-1515

Palm, seed & tropical oils

Palm; sunflower, safflower and cottonseed; coconut, palm-kernel and babassu; rapeseed/colza/mustard; other vegetable or microbial oils.

1516

Modified oils & specialty fats

Hydrogenated, interesterified, re-esterified or elaidinised animal, vegetable or microbial fats and oils within the authorized classification.

1517

Margarine & fat preparations

Margarine and food preparations based on animal, vegetable or microbial fats and oils within the authorized code.

1518

Chemically modified oils

Cooked, oxidized, dehydrated, sulphurised, blown, standolised or otherwise chemically modified fats and oils, excluding 1516.

3823

Oleochemical derivatives

Industrial monocarboxylic fatty acids, refining acid oils and industrial fatty alcohols.

Important Final cargo acceptance, capacity, berth conditions and customs feasibility are confirmed only after product-specific technical, safety, customs and operational review.

What we need to assess your product

01 Product identity

Commercial name, product family and customs classification where available.

04 Temperature profile

Expected arrival temperature, viscosity and any heating requirement.

02 Quantity & frequency

Expected parcel size, annual or campaign volume and delivery frequency.

05 Segregation

Dedicated-line, tank-cleanliness or contamination-control requirements.

03 Origin & destination

Country and loading port, intended market and onward-distribution logic.

06 Storage window

Spot, medium-term or long-term storage requirement.

Who this guide is for

Traders, refiners, edible-oil operators, specialty-fat and ingredient companies, oleochemical operators and industrial users.
