14,750 t

19 operating storage tanks

UNDER CONSTRUCTION

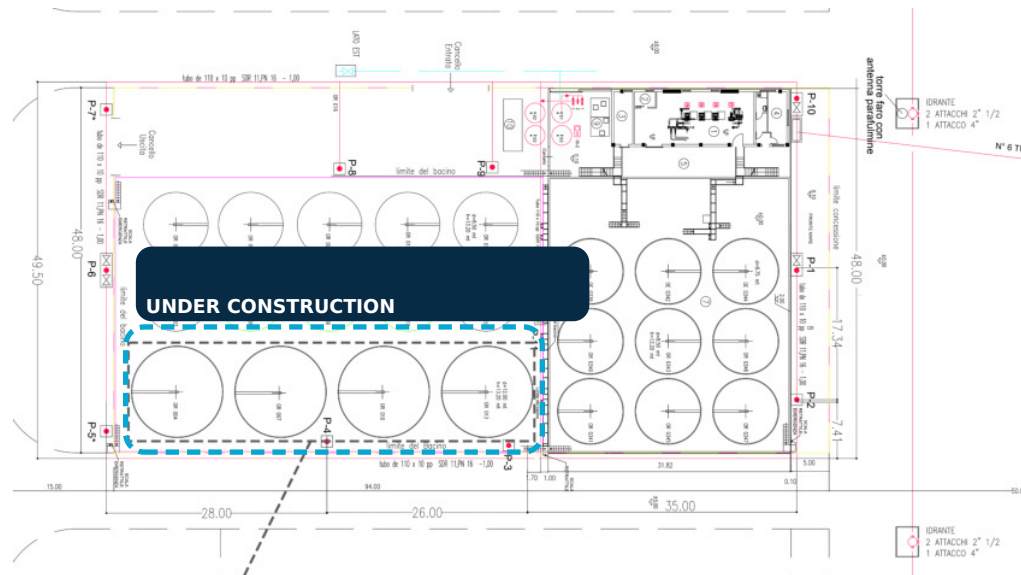

+6,000 t

4 new tanks x 1,500 t

PLANNED AFTER COMPLETION

20,750 t

23 total storage tanks

What the 2026 expansion adds

CONSTRUCTION STATUS UPDATE

The four large tank positions shown in the expansion area are under construction. Company target: completion by the end of 2026. This timing supersedes the older schedule note printed on the source drawing.

- **Additional capacity**

6,000 t of new planned storage capacity, equivalent to four 1,500 t tanks.

- **Larger platform**

Planned total storage capacity increases from 14,750 t to 20,750 t after completion.

- **More tank positions**

The planned tank count increases from 19 operating tanks to 23 tanks after completion.

- **Construction status**

The four new tanks are currently under construction; they are not presented as operating capacity until completion and commissioning.

- **Commercial clarity**

Availability of the new capacity remains subject to completion, commissioning and product-specific operational confirmation.
